S.T.E.M Aviation Careers Day & Young Women:

9am – Midday, SUNDAY 27 MAY, 2018

(Gate opens at 8:45am for security screening)

Hangar 2 Qantas Base Maintenance,
52 Priors Rd, Brisbane Airport 4008

Last year's inaugural event here in Brisbane hosted 85 keen young women and, to date, these careers days have reached over 250 female high school students across the country!

Each event is run by volunteer professional women from a wide range of S.T.E.M aviation streams and organisations, all of whom are passionate about encouraging young women to consider an exciting and fulfilling career in aviation.

See it. Be it.

The aviation industry has little difficulty in attracting young men into S.T.E.M-related fields, with rates of professionals typically in excess of 95% in most streams. To be able to connect young women to those already achieving in their areas of expertise is a wonderful thing.

'Most of us were fortunate to have someone who gave a bit of good advice and support along the way – it's nice to be able to pay it forward.'

See you there!

Important:

1. The Event is open to female high school students from Years 7 – 12.
2. The Event is only for S.T.E.M-related aviation careers such as civilian and military flying, air traffic control, air safety investigation, engineering – it does NOT include information on flight attending.
